SECTIONAL • SOLID END

Globe-Wernicke sectional and solid end bookcases add to the appearance of home or office, protect books from dust and damage.

Sectional bookcases permit expansion to meet individual needs and may be had in a number of distinctive designs and standard finishes for home and office. Special finishes to match other furniture will also be furnished.

Globe-Wernicke originated the sectional idea in bookcases and has been the pioneer and leader in their development.

Solid end bookcases are available in Ardmore, Ben Franklin and Plymouth styles, each in popular sizes—splendid examples of wood craftsmanship.

## SECTIONAL BOOKCASES

*grow as your library grows*

Above is shown the sectional idea of Globe-Wernicke bookcases. One book section, with top and base is, up to its capacity, a complete bookcase.

The owner of a dozen books can begin with one section and add successive sections as his library grows. A sectional bookcase is never too large or too small—it is always complete—yet ready for another section when needed.

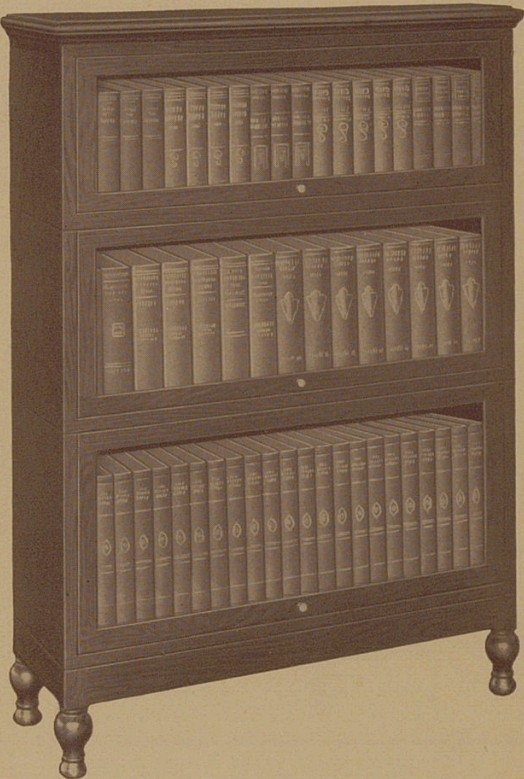

Sectional bookcases grow with your library and can be built up to fit the space available. On the following pages are illustrated and described many styles and sizes of Globe-Wernicke bookcases. Sections are furnished in three different heights to fit various requirements.

### SECTIONS ARE DUST PROOF, AIR CUSHIONED, NOISELESS

To prevent dust from entering section, the top edge of the door is fitted with an air-tight felt strip and the sides and bottom of the door fit snugly into the shoulders of the recesses.

When the door is closed, this felt strip prevents the air from escaping from the sections, forming an air cushion, on which the door drops easily, without shock or noise. The metal equalizer prevents the door from binding and sticking, centering the action of the receding door. The steel hangers on each side of the door glide smoothly in metal grooves—there is no friction or binding to make them stick.

Each bookcase section is grooved at top and bottom at the back to permit cases to firmly interlock in sections.

AMBASSADOR STYLE

The Globe-Wernicke Ambassador turned leg style sectional bookcase was designed to harmonize and blend with the suite furniture so popular today. See page 9 for construction details of book sections. Doors are dust-proof, non-binding, and noiseless.

IMPORTANT

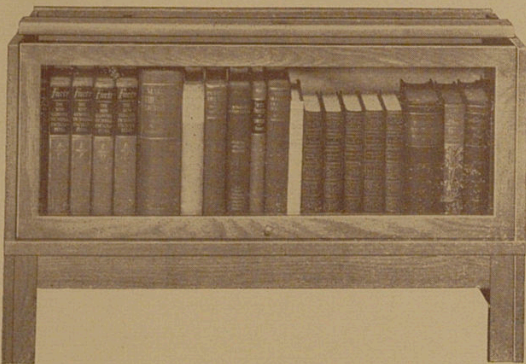

To duplicate sections, tops and bases, give the pattern and finish numbers appearing on the label on the inside of the book units and on the interlocking shelves of the tops and bases.

Above: No. 7411 Economy style unit which is a combination top and 11" high book section.

Above is shown how a standard Economy style book section is intermembered with combination top and base sections.

A combination leg base and 11" high book section unit No. 7471.

ECONOMY COMBINATION STYLE BOOKCASE

An inexpensive sectional bookcase having a one-piece combination top and 11" book section and a combination leg base and 11" high book section. These strongly built bookcases of modern design are ideal for use in home, offices, schools and public libraries.

Combination units are furnished only with 11" high book sections. However, three different heights of standard Economy book sections (9", 11" and 13") are available for intermembering with these combination units when additional book space is required.

Doors are receding type—dust-proof, non-binding and noiseless. See Page 9 for features of G/W sectional bookcases. Available in Plain Oak, Quartered Oak and Imitation Walnut or Mahogany finishes. See Page 22 for list of finish numbers.
